```

# Click on the “File Transfer Icon”.

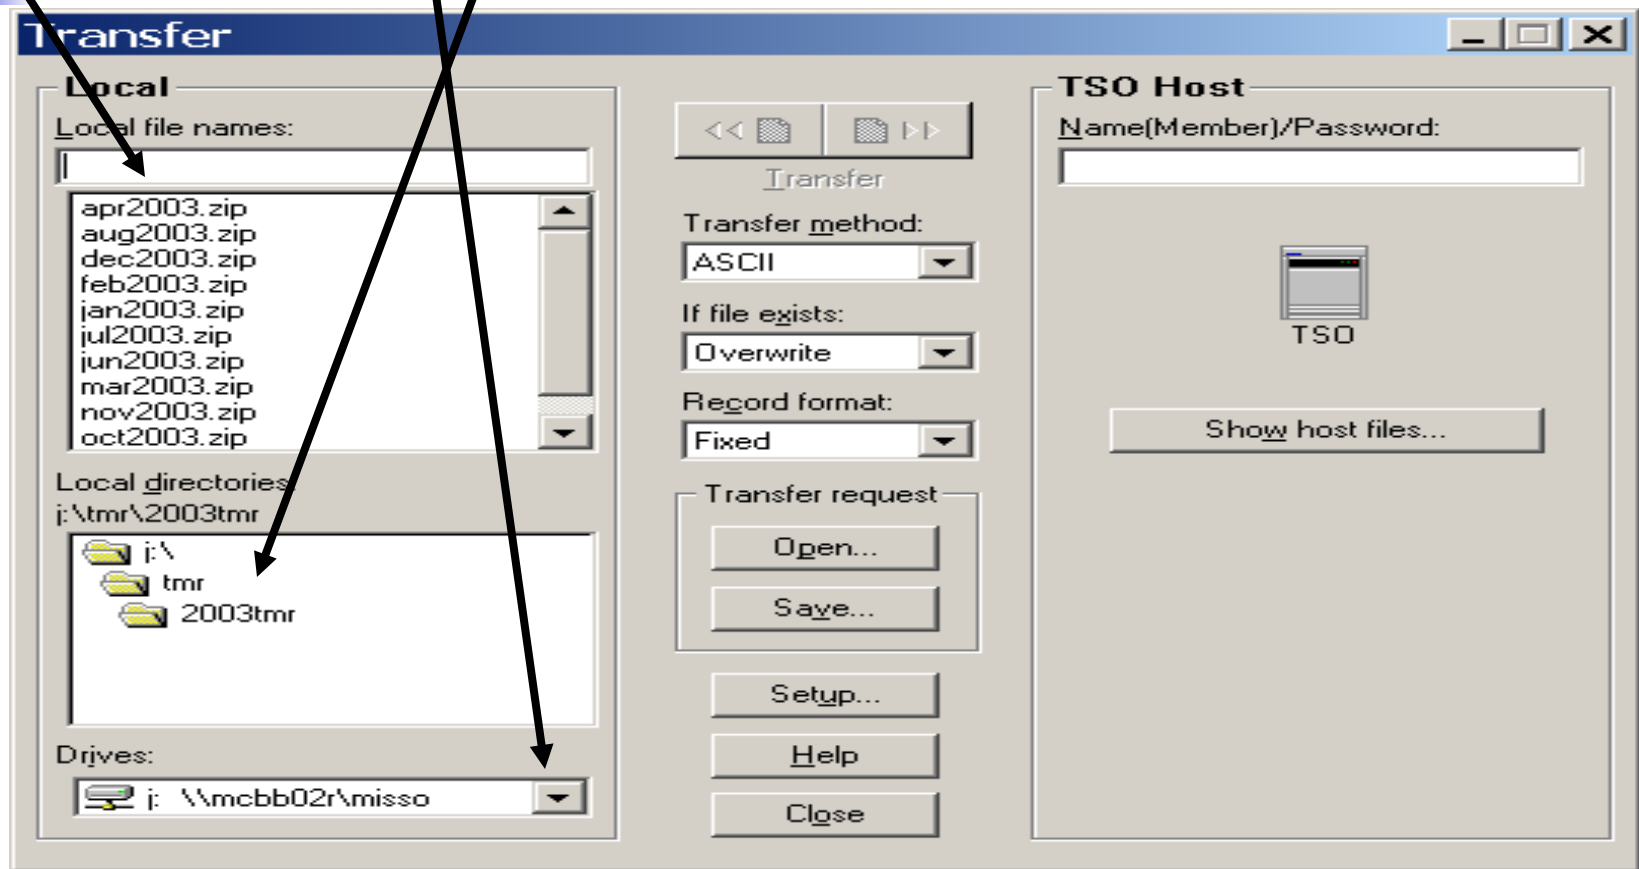

This is the main screen to download, you will need to setup all your options here.

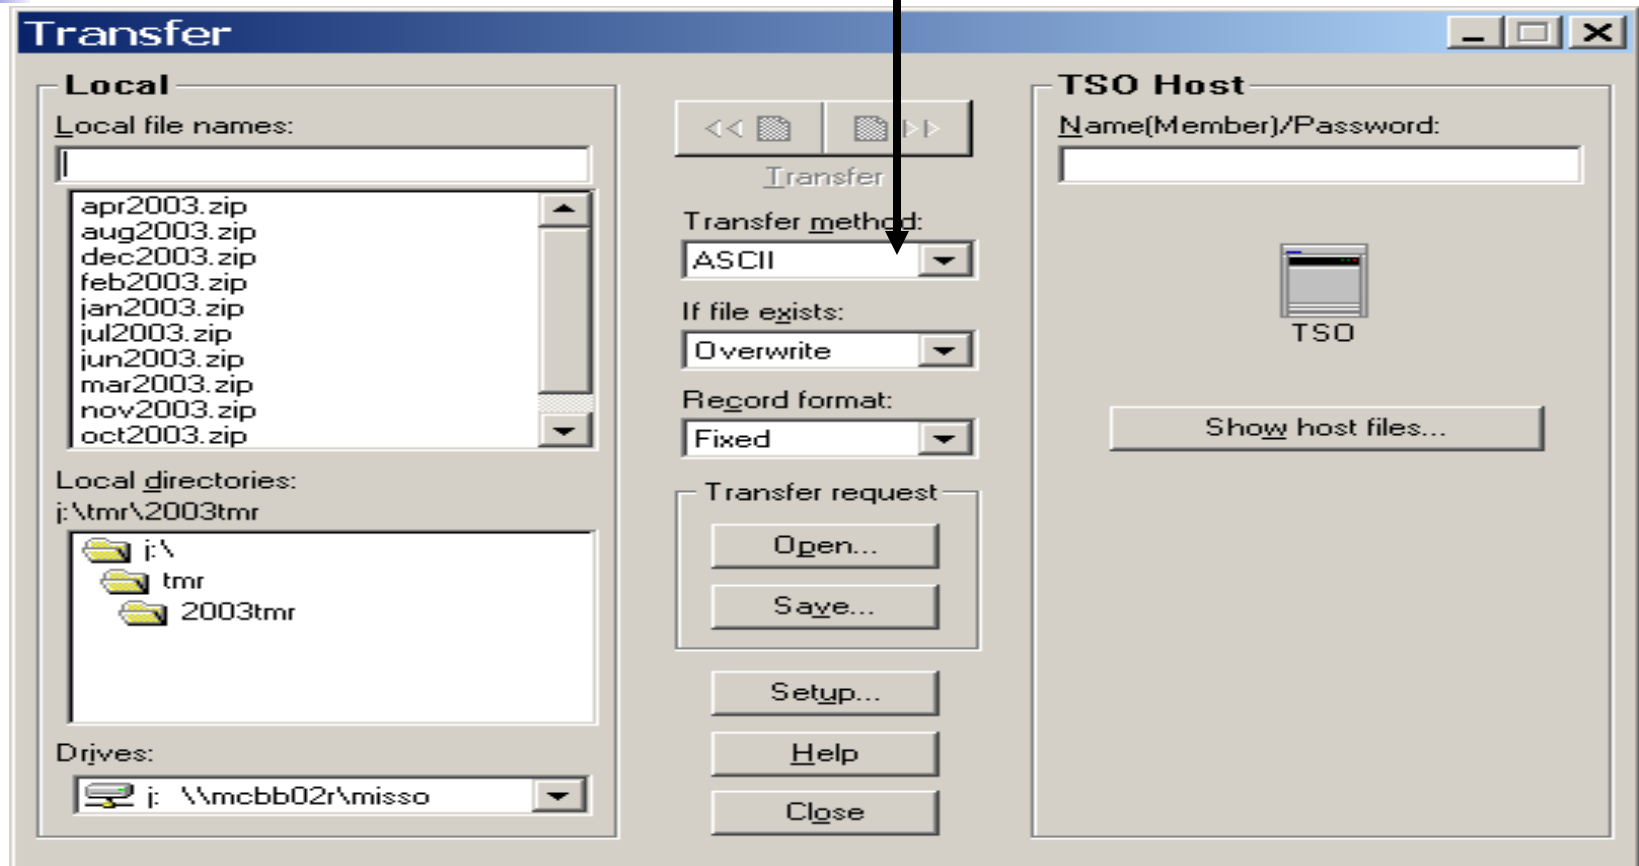

The file name goes here. Select the drive and folder directory here.

Left hand side.

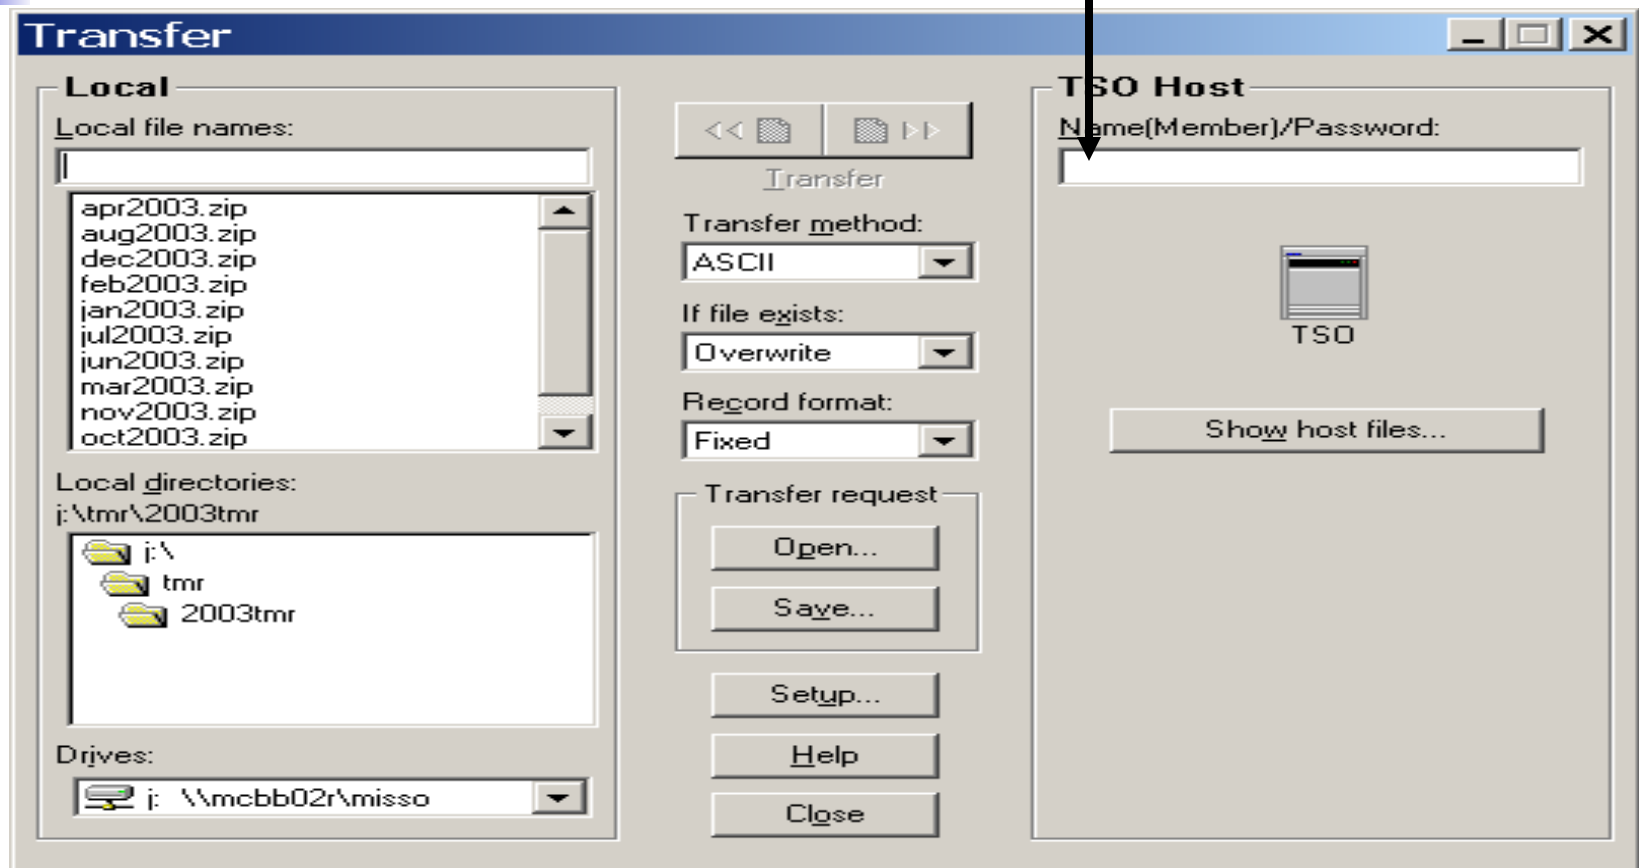

Transfer method must be ASCII.

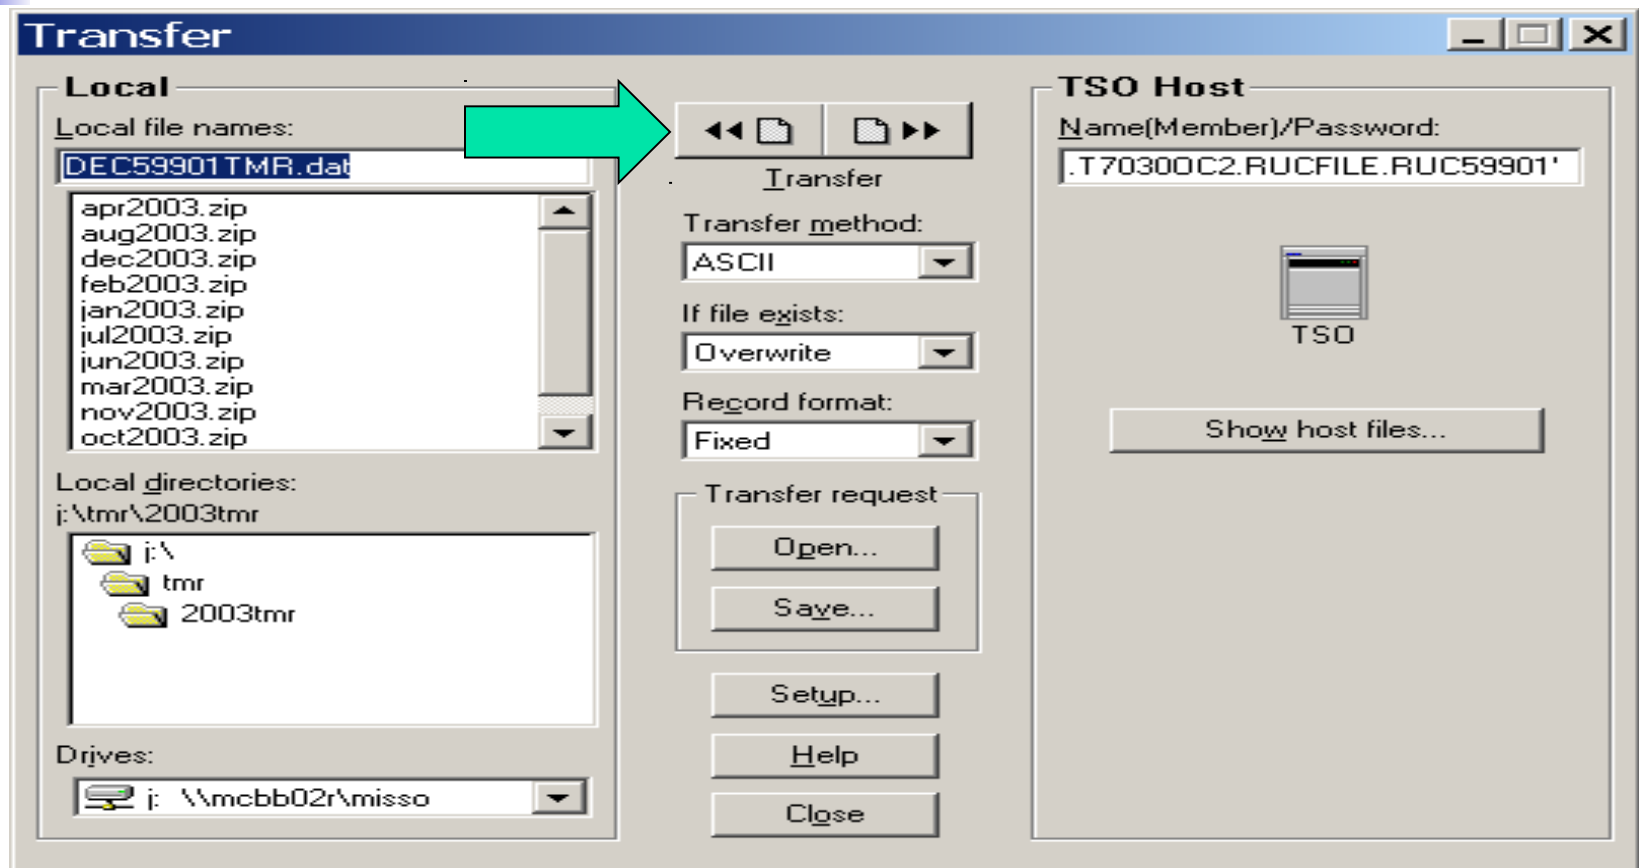

The dataset is: 'OKI1.RCMU.T70300C2.RUCFILE.RUCXXXXX'. You must enclose the dataset in single quotes. Where RUCXXXXX is equal to your actual RUC.

Right side is used for the dataset.

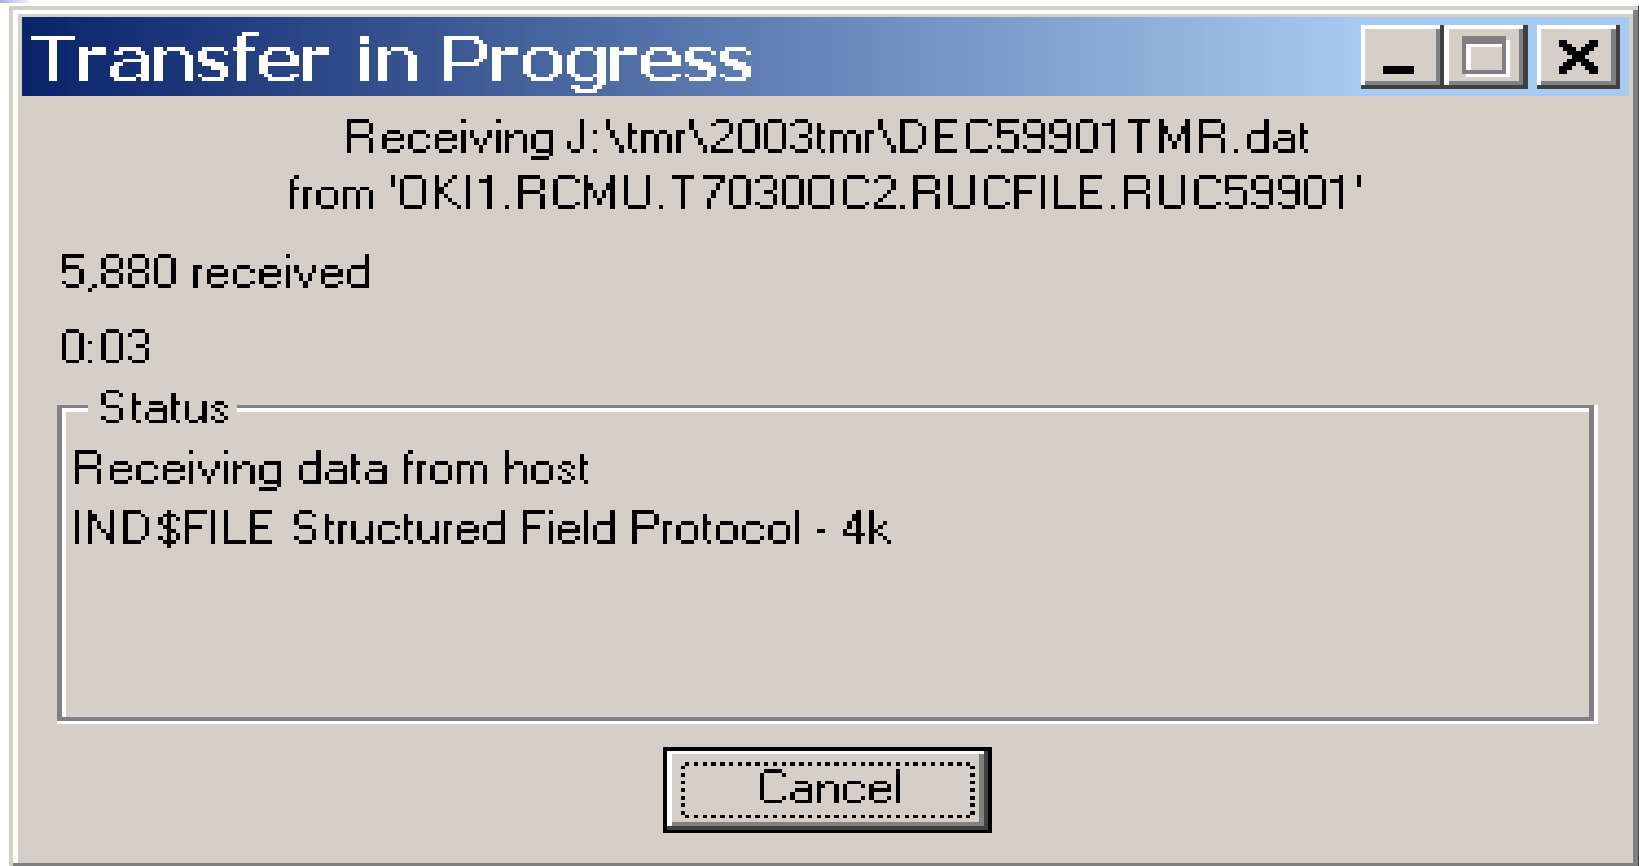

Once both side are filled, click on the left button to receive the file.

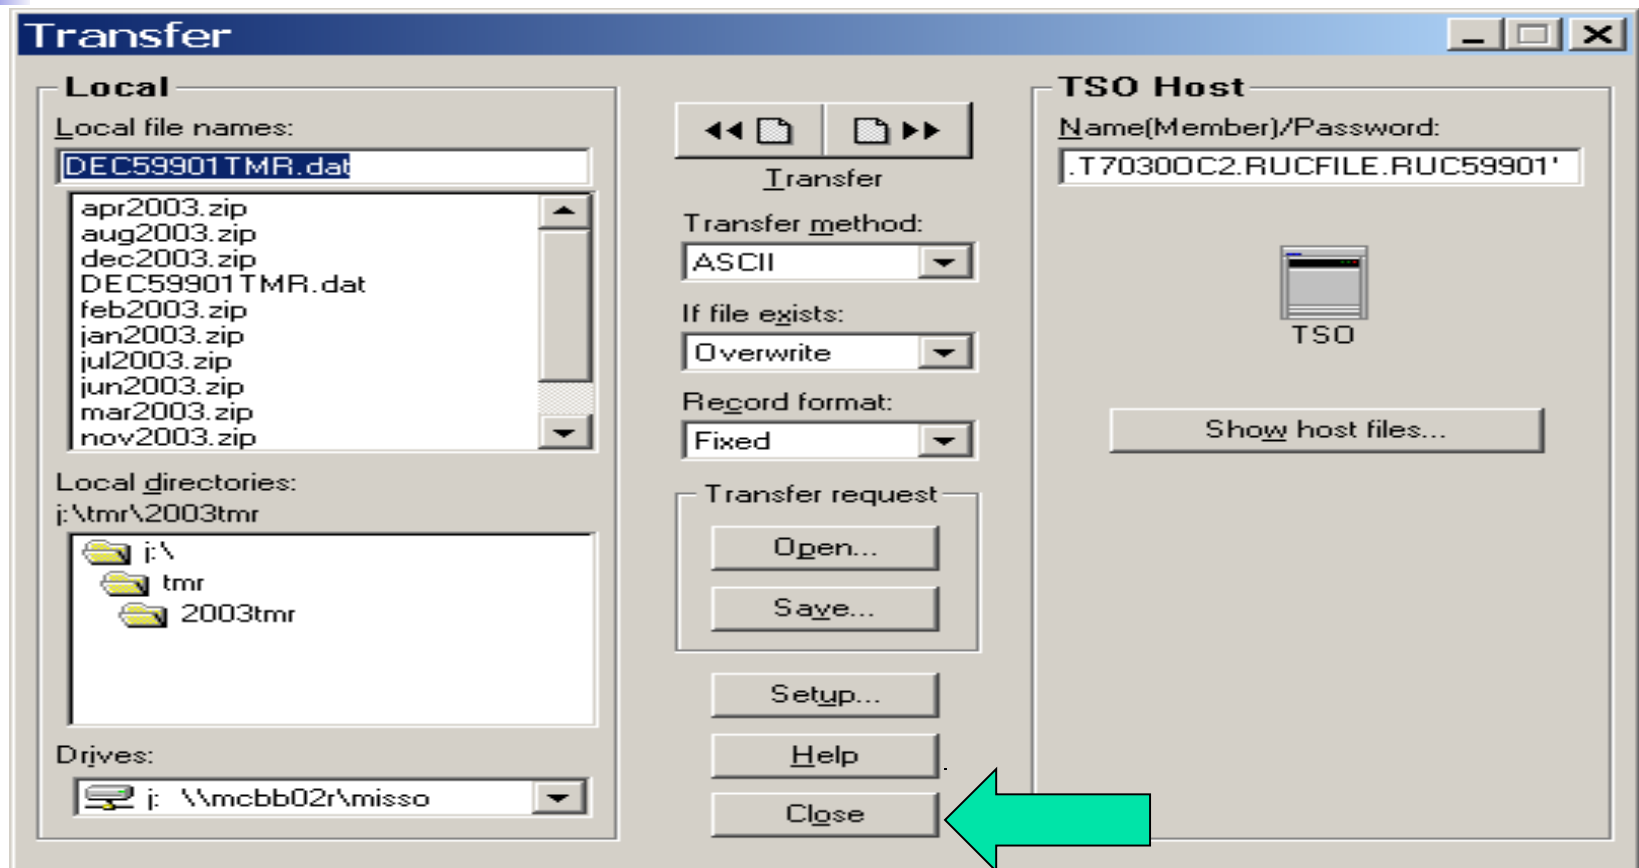

This will down load the file to your  
selected location.

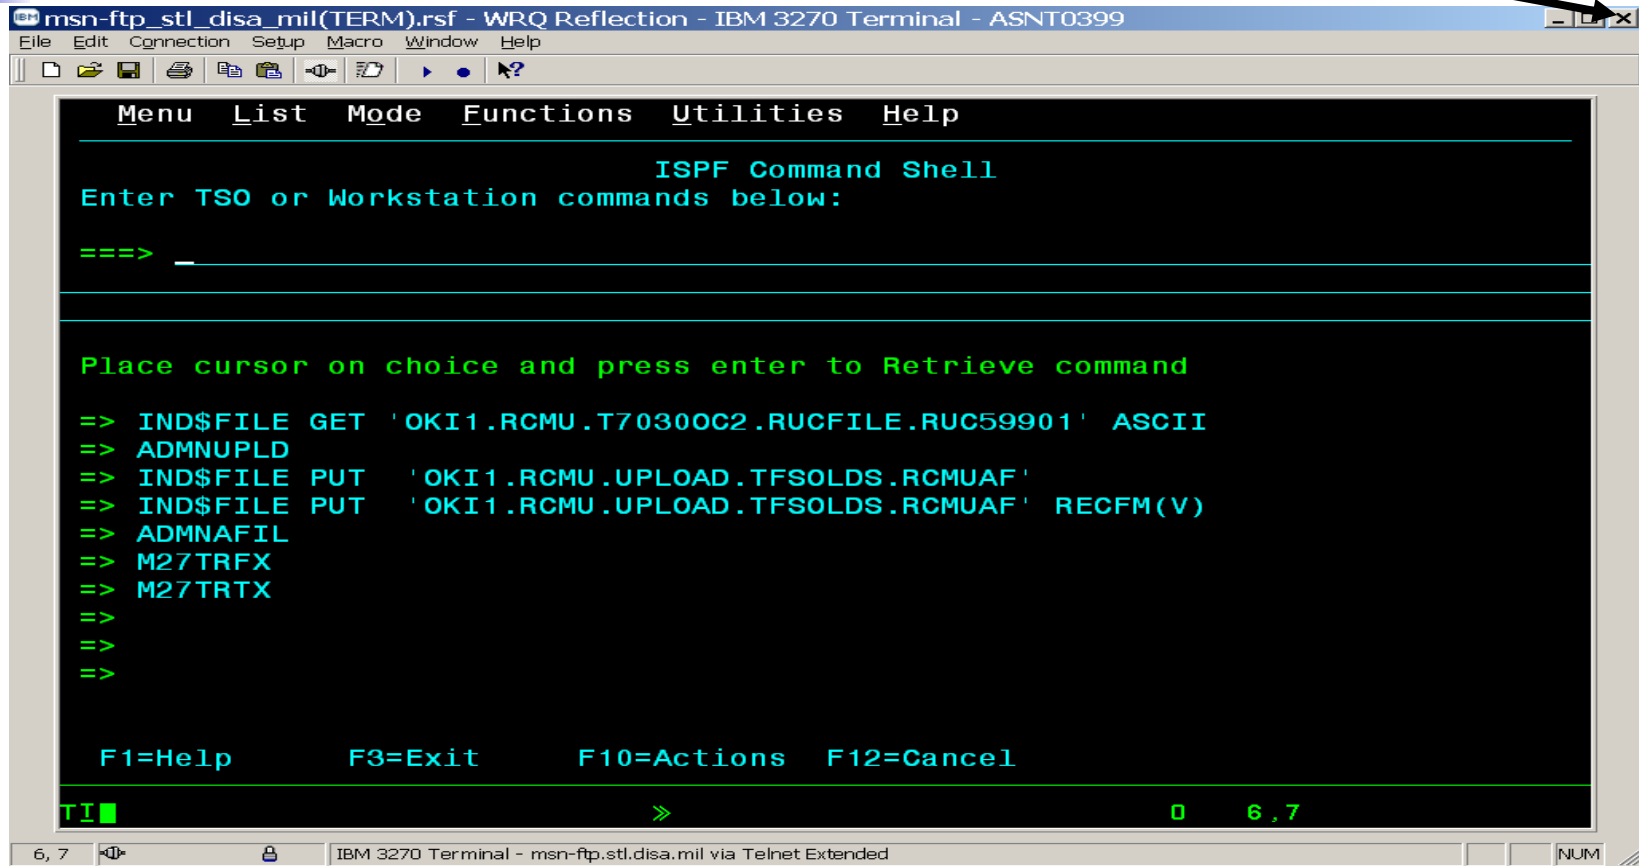

Once completed, click “Close”.

You can now close the window.
